Tropical will use the industry accepted ELISA Testing Method, which can detect levels of gluten as low as 10 parts per million. Our label will include the ELISA Testing Statement declaration.

Why Gluten Free?

Our research has found a void in gluten free croutons on the market, as all crouton products that we have seen are made with wheat products. My Salad Bar gluten free croutons are made of rice.

Celiac disease is one of the most common chronic health disorders in western countries and also one of the most under-diagnosed. It affects at least 3 million Americans.
